

Governor-General Given Hearty Welcome During Short Stay at Lacombe

Lord Tweedsmuir Places Wreath on Local Cenotaph; Tea Served to Vice-Regal Party in Home of Mr. and Mrs. F. H. Reed

Lacombe was host Friday afternoon to Their Excellencies, Lord and Lady Tweedsmuir, and party. The Governor-General and his Vice-regal party motored in from Stettler just after 4:30 p.m. and travelled to the cenotaph. At the entrance to the park, His Excellency was greeted by Mayor E. H. Jones, who in his words of welcome, expressed his regret that the Governor-General's visit in Lacombe was so short, and informed His Excellency of the many interesting things to be seen in and around Lacombe. In answer, the Governor-General spoke briefly, expressing his regret at the short visit, and stating that he hoped to come again to Lacombe for a much longer stay. Inside the park, a guard of honor consisting of Boy Scouts, Cubs and members of the Canadian Legion was drawn up on either side of the pathway leading to the cenotaph. His Excellency inspected the guard, stopping to chat cheerfully with different members. He then placed a wreath at the base of the cenotaph and stood at attention for one minute in tribute to the war dead.

Explains Erection of Cenotaph
Mayor Jones explained to Lord Tweedsmuir that the cenotaph was erected and Memorial Park laid out, possible by the wives and mothers of war veterans, known as the Let-Us-Forget Club, and it was due to their efforts that the park and cenotaph were built. Members of the Let-Us-Forget Club, headed by Mrs. W. Ritson, president, were then introduced to His Excellency, followed by members of the I.O.O.F., Women's Institute and Rev. and Mrs. R. B. Layton, representing the clergy.

On his way out of the park, the Governor-General shook hands with Ernest Butlin of the Scouts, complimenting him on his earning a medal for outstanding efforts on behalf of the Troop. Scoutmaster G. Edginton was complimented on the smart appearance of the Troop, as Lord Tweedsmuir showed great interest in the Cubs, of which there were about 30 present.

I.O.O.F. Picnic Rained Out—Supper Served in Club Rooms

Not to be cheated out of their annual picnic, Oddfellows and Rebekahs of Lacombe lodges, together with some visitors from Clive, prevented from carrying out original plans for a picnic at Gull Lake because of rain, gathered at the Oddfellows Hall in Lacombe on Wednesday, July 22, where nearly one hundred members and friends sat down to a sumptuous supper.

A peanut scramble and a plentiful supply of oranges, ice cream and lemonade was appreciated by the youngsters, while their elders enjoyed a pleasant social visit. Visitors expected from other towns north and east were unable to come owing to the heavy downpour of rain.

Celebrates Eighty-Fourth Birthday

Mrs. Mary Jones Honored by St. Cyprian's W.A. Members

To celebrate one's 84th birthday with health and faculties unimpaired is an honor few attain. It was therefore with hearty congratulations and a sense of thanksgiving that members of St. Cyprian's W.A. gathered to celebrate with Mrs. Mary Jones her 84th birthday.

A treasure hunt and some lively games added to the jollity of the occasion and a delicious tea was served, during which Mrs. Jones cut the birthday cake.

Mrs. Henly-Lewis, president of the W.A., proposed the health of the guest of honor in a few well chosen words and Mrs. Jones replied, expressing her deep appreciation of the love and honor shown her.

After singing "For She's a Jolly Good Fellow," the ladies gave three cheers, a cheer and a rouser, and a very happy afternoon closed with the singing of the Doxology and a prayer of thanksgiving.

SUCCESSFUL SMOKER HELD

Members of the Canadian Legion, Lacombe branch, held a successful smoker in the Empress Hotel Friday night. The smoker was just a fraternal get-together and community singing was indulged in.

This Week's Thought

He who commits injustice is ever made more wretched than he who suffers it.

Rainfall Proves Boon To Growing Crops

Last Week's Downpour Gladly Heeds of Farmers; Crop Report of District Optimistic

Last week's wonderful rain has entirely changed the picture as far as the crop situation in the district is concerned, creating a spirit of optimism, where previously some anxiety was felt.

The bountiful rainfall also gives farmers every reason to feel that sufficient feed will now be obtainable to carry their stock through the coming winter.

From an official of a prominent company who covers the territory adjacent to Lacombe, the Western Globe was able to learn the following crop report of the district. He says, "Although the report must be regarded as from personal observation; it will nevertheless serve to give some idea of the growing crop, as one sees them passing through the country."

The report follows:
Barley has a fair stand; so also have wheat and oats. The grain is splendidly but the late rain will undoubtedly help the heads to fill out and a satisfactory yield should result.

At Ponoka, Morningside and Lacombe easterly, the grain was slow to start; dry, hot weather kept it back. A succession of rains, together with the deluge of last week, has caused a growth that will cause many of the pessimists to change their views when threshing starts. There will be a very fair crop in the country, provided no harm comes in the way of hail or frost.

At Clive and Chigwick crops look good, with a good stand and splendid prospects of a very satisfactory yield. Towards Tooly, Alis and Nevis, before the heavy rain of last week, the grain was beginning to burn badly in many fields, while in others it was quite spindly. However, after the deluge of last week, the growth from now on should at least give the farmers some consolation for the hot, dry winds of early summer. They will have a fair yield.

West of Lacombe and West of the 5th Meridian, taking in Bentley, Rimby, Gilly, Eckville, Leslieville and Alhambra, one can be very brief and say that the grain is good and if no harm befalls them a good yield will be their reward.

Bluffton, although in the early stage of development with a few large farms, has a good looking crop, and if hail stays off and frost does not come too soon they will do much better than they anticipated. It must be remembered that this is a typical bush district, with quite a large acreage in crop, but chiefly in small patches.

Hall struck three miles south of Bluffton, four miles north of Rimby about three weeks ago and although it took only a narrow swath of country, it did great damage where it fell. However, with the moisture recently fallen, and given good weather, they may yet be able to salvage something for their work.

All in all, crop prospects in the territory adjoining Lacombe (and district) look very good and present indications show that a good crop will be harvested, which at present prices will bring the farmer beneficial returns.

Tour Cancelled

REV. ROBT. A. JARDINE

(above) the "Poor Man's Parson" of Darlington, Eng., who defied the ban of ecclesiastical authorities to perform a wedding ceremony for the Duke and Duchess of Windsor, is shown as he reached New York city, where he was to have given a lecture tour. The tour has been cancelled by its sponsors after creating considerable controversy.

Although unable to move the car, the three friends and the driver were able to pull Moore's head from between the bumper and the bank and lift it above the water. Later, when more aid arrived, the car was moved and Moore was taken to the Lacombe hospital.

He sustained no broken bones and was able to leave the hospital on Monday for his home ten miles north of Stettler, although not fully recovered.

According to witnesses, Moore and his friends were walking along the highway and when the car approached Moore jumped to the middle of the road instead of the ditch as the men with him did. It was then that the bumper of the car when it swerved to the middle of the road to avoid the four men, and carried on it into the ditch where the car stopped. It was believed that the driver of the car had not seen the three men as he approached in the dark.

Was employed on farm of P. A. Switzer. No bones broken, he left for home near Stettler.

Ted Moore, 25, a farm-hand employed on the farm of P. A. Switzer, was pinned under two feet of water between the bumper of a car and the bank of a ditch Saturday evening when struck by a car said to have been driven by F. E. Tracy, living four miles from here, as he walked home along the highway with three friends.

Governor-General Appreciates Welcome

In Letter to Mayor Jones, He Expresses Pleasure of Meeting Citizens, and at Reception

That the Governor-General and Lady Tweedsmuir enjoyed and appreciated their short visit to Lacombe is evident from a letter received from His Excellency, through his Secretary, to Mayor E. H. Jones. The letter, dated July 18, is as follows:

Dear Mr. Mayor—I am indebted by the Governor-General and the Lady Tweedsmuir to thank you most warmly for your kindness to them at Lacombe the other day. It gave them great pleasure to meet you and so many of your citizens and they greatly appreciated the arrangements made for their reception.

Would you kindly convey an expression of their appreciation to all concerned.

Yours very truly,

A. S. REDFERN,

Secretary to the Governor-General.

Local Golf Players to Compete for Fine Cup

A feature of the Lacombe Golf Tournament, to be held on the local links Wednesday and Thursday, July 28 and 29, will be a special event open only to members of the Lacombe Golf Club who are entered in the tournament.

A beautiful cup is being presented by the visitors to be awarded to the local player turning in the best net score in the qualifying round (that is, the gross score less handicaps). The cup is to remain the property of the Lacombe Club and will again be put up for competition later on among the club members, when conditions of play will be arranged.

Last Week's Rain Heaviest Since 1931

Total of 3.28 inches fell in 54 hours; Liferaver for Crops and Pastures

The rainfall which commenced at 5:50 p.m. on Tuesday, July 13th, came as an almost-hour answer to the prayers (actual or inferred) of the farmers of the Alberta farmers. Although 3.28 inches of precipitation fell during the 54-hour period, the parched soil drank it down as it hit the ground, and when the drizzle at last subsided there was no surface water evident on the loam soil of the Lacombe district.

During the last few days, dozens of people have said, "how this rain compared with previous delays. In order to give others an idea of the comparison, we quote a few facts and figures from the records of years since 1895." The heaviest 48-hour rain on record at Lacombe.

This 3.28-inch total was the heaviest continuous fall since June 29th and 30th, 1931, when rain to a depth of 3.31 inches fell in 48 hours, the heaviest 48-hour rain on record at Lacombe.

During the last 14 hours of last week's rain, 1.75 inches of moisture was received—a very creditable figure. However, it too, now this rain, followed by a 1931 rain, this one on June 16th and 17th, when 2.26 inches fell in 14 hours.

A Real Hail Storm
Among the rains of recent years—these have been rather scarce—one stands in a class by itself. On June 29th, 1934, 1.31 inches of precipitation was recorded over a brief period by this very hour.

However, most of this came in the form of hail, which lay four inches deep when the storm was over. Most readers will remember the havoc wrought by this hailstorm.

Last week's rain presented the Lacombe district with more moisture than the entire period from May 24th until July 13th; during this seven-week period, the most vital part of the growing season, only .313 inches of rain had fallen.

Everyone in this district welcomed this long-awaited rain, which arrested the withering of crops, is helping the early grains to fill, has given later crops a chance to make good, and has proven a life-saver to close-cropped pastures.

Gordon Savage Wins

Motoring to Innisfail last Sunday, Stan Mutch, "Chub" Irish, John MacDonald and Jack Corbett took part in the elimination district play-down on the Innisfail golf course, near Calgary Herald Cup.

Players from Trochu, Didsbury, Innisfail, Red Deer, Lacombe and Wetaskiwin, representing District No. 8, competed in 36 holes of medal play. Gordon Savage of Red Deer won out, carding 150 for the 36 hole match and will represent District No. 8 at Calgary, where the final will be decided.

"Chub" Irish was "up and in there," shot himself into fourth place with a 156, just six strokes behind the winner.

Directors Set Friday, July 30th, as New Date For Lacombe Fair

Everything in Readiness to Make Event the Biggest Yet; Splendid Variety of Attractions and Sports; Good Livestock Exhibits

With a welcome rain that cheered the hearts and made jubilant the farmers of the district and business men of the town last Wednesday and Thursday, a problem was created for the Lacombe Fair directors, who had scheduled the district fair for Friday, July 16th. Realizing the attendance would be seriously affected, and the difficulty of farmers getting in with livestock exhibits, an emergency meeting was called and an immediate decision made to postpone the event.

Last Saturday night, another meeting of directors was called at the office of D. F. Chisholm, Secretary, with T. Wilks, President, in the chair. Committees reported everything in readiness, and it was unanimously decided to make Friday, July 30th, the new date for the 42nd Annual Fair of the Lacombe Agricultural Society. The directors regretted the necessity of postponing the event and the disappointment caused the hundreds who had anticipated attending.

Final Specifications of Hospital Completed

It is expected that members of the newly created Community Hospital Board will meet on Friday night in the Town Office, at which time the architect, M. C. Dewar, will present his final plans and specifications. All things at present point to the early completion of the building, work on which it is hoped will be started within three or four weeks.

Different difficulties which arose over various clauses included in the bill passed by the Provincial Legislature recently appear to be smoothed out, and the Board will go straight ahead with the necessary phases of their work.

New Filling Station Being Erected Here

Building permits in Lacombe reached a total of \$745 last week for this year when a permit calling for construction of a filling station in the amount of \$2000 was filed. The station is being erected in the old Valens Garage on the Stettler Highway, which has been rebuilt and moved just west of the Lacombe Milling Co. by Gas and Oil Products of Calgary.

Pupils of Mrs. Woody Pass Examinations

The following pupils of Mrs. Harold Woody were successful in the recent Toronto Conservatory of Music examinations:

Piano, Grade 2—Joyce Calkins, pass; Isobel Frizzell, honors; Rita Woodrow, first-class honors, Grade 7—Margaret Woody, pass. Theory, Grade 1—Winona Saunders, honors; Margaret Woody, first-class honors.

Westling

WESTLING—Miss Lillian King, Miss Dorothy Forch and Walter King spent a week in Calgary, returning Monday.

The dance in the hall Saturday night was well attended.

Be sure and come to the dance in the Westling Hall on Thursday, July 22nd. The Rocky Mountain Rangers will supply the music.

The W.A. meeting that was to have been held last Wednesday was held on July 21st at the home of Mrs. Carter.

Hubert Summerville returned to Edmonton a week ago last Sunday after visiting his parents here.

A number of Westling people were visitors at Gull Lake Sunday.

The Chatelaine Club and the Swedish Sunday school are holding a community picnic on the picnic grounds on July 27th.

Salem, capital of Oregon, is on the Willamette River.

Sub-Arctic Outpost Re-named Radium City

On the petition of 100 per cent of the residents of the tiny settlement on the shores of Great Bear Lake, 30 miles from the Arctic Circle, Cameron Bay, N.W.T., has been renamed Radium City. Seven miles from the silver-radium camp at Eldorado, it serves the mine as post office, radio station and has the R.C.M.P. post for the area. The Radium City P.O. is pictured with Vic Ingram, famed figure of the far north, who serves as its postmaster (CENTRE), with an outgoing mail. All mail comes in by air from Edmonton, 1140 air miles south. Collectors, particularly in the U.S. and Great Britain, continually send letters to Ingram with requests that the stamps be cancelled with the mark of the sub-Arctic post and re-mailed to them.

Crowds of Local Citizens Greet Governor-General

(Continued From Page One)

Twoedsmuir's party were: Their Excellencies' son, Hon. Alastair Buchan; Mrs. G. Page, Lady-in-Waiting to Her Excellency; A. S. Hedder, secretary to His Excellency; Lieut. G. Rivers-Smith and Capt. G. P. Campbell-Preston, aides-de-camp.

Entertained at Tea

Lord and Lady Tweedsmuir and party then drove to the Experimental Station, where they were entertained at tea at the home of Mr. and Mrs. F. H. Reed. The drawing rooms were gay with baskets of garden flowers, giving a charming effect. In the dining room, where Mrs. P. W. Pratt and Mrs. E. H. Jones presided at the tea urns, the table was very attractive with an Italian drawn work cloth, centered with a cut glass bowl of flowers surrounded by colored tapers.

Miss Brenna Reed and Mrs. R. Lawrence assisted the host and hostess. Many guests from Sylvan Lake and Red Deer were also present, besides the following invited citizens of Lacombe:

Mayor E. H. Jones and Mrs. Jones, Town of Lacombe; Mrs. Sansbury, Reeve and Mrs. Huettelheuser, Municipality of Crofton.

Mrs. P. W. Pratt, Regent of the L.O.E., and Mr. P. W. Pratt.

Mr. W. Anderson, Canadian Legion, and Mrs. Anderson.

Mr. T. W. Henley-Lewis, President of Scouts, Red Deer District, and Mrs. Henley-Lewis.

Mrs. W. Riton, President, Lest-We-Forget Club.

Mr. G. H. Edington, Scoutmaster, and Mrs. Edington.

Mrs. W. Teward, President, Women's Institute.

Mr. Jesse Fraser, Lacombe Board of Trade, and Mrs. Fraser.

Mr. J. S. McCormick, Lacombe Board of Trade.

Cardston, Alta., is noted for its huge Mormon temple.

Paved Road From Border to Banff

Next year Alberta will have a hard surfaced highway from the international boundary in Waterton Lakes Park to Banff National Park, according to recent predictions by Hon. W. A. Fallow, Minister of Public Works for this province.

This year's program includes 160 miles of "hotter" surfacing, which takes in 70 miles from Waterton Park to Macleod and 22 miles from Calgary to Okotoks.

There is also 53 miles on the Edmonton-Calgary main highway, made up of 30 miles from Calgary to Crossfield and 22 miles from Edmonton to Millet.

On the Waterton to Macleod project the province will be aided by a Dominion grant of \$75,000 under the park-to-park development scheme inaugurated by the Dominion last year.

"We welcome the minister's assurance that there will be a hard-surfaced road to Banff next year, when the links have been filled in," said an official of the Alberta Motor Association.

"Let it be widely known that this program of improved road surfacing is being substantially extended and there will be a big swing in the tourist movement to this province."

English Poet's Love For Animals

John Masfield is more than England's Poet Laureate—he is the Poet Laureate of Humanity. Yes, and more, of that vast world of animal life below man. His sympathies are as wide as life itself. A writer in "The Animal's Friend" quotes the following from one who writes about Masfield:

"There he is with his hands full of crumbs, and all the birds for miles around are flying and hopping nearer and nearer to him; now a hop forward, now a swift retreat, but always in the end clustering close about him. Here is a poet of whom another of the craft must have been thinking when he told how the poet went out into the fields to sing his songs, and as he sang, all the birds stopped their songs to listen, and listening, whispered to one another. 'Il est de la maison.' He is, for there never has been an English poet who loved more passionately or more tenderly bird and beast, and flower and tree."

Sunny Crest Specs

SUNNY CREST.—Francis and Alfred Hunt have been down with the measles but Alfred is now over them.

Peggy Johnstone and Frankie Cain are holidaying with friends in Edmonton.

Marjorie Gee is home from Vancouver, where she has been attending school.

Hazel Arthur and Rose Woods started Vacation School Tuesday at McLaurin Beach.

Mrs. B. F. Barr was with her husband at Aspen Beach for a few days. She is now able to get around.

Quite a number in our neighborhood motored to Sylvan Lake Sunday to see the two Darkie tennis play ball.

Last week Grandpa Saunders celebrated his 79th birthday. Mr. Saunders is quite an old-timer, coming in 1903 to look over the district, and the following year he started farming here.

Glenn German was a Sunday visitor at Les Saunders' home. He is staying at McLaurin Beach with Dr. Hughes' family.

Quite a number are planning on attending the Woodman's picnic, which is to be held at Lakeside Beach, Gull Lake, on Wednesday, July 28th.

GOING AND COMING

The wealthy father was very skeptical of the financial status of the young man who was courting his daughter. He took him aside one evening and asked: "Now, about money—how long do you think you can keep going?"

The young man stammered: "Not very long, I guess."

"Then don't keep coming," said the father.

Spring Valley

SPRING VALLEY.—Mr. and Mrs. Nichol Gray have as their guests Jack, Betty and Jean Corneil from Toronto. From all appearances, they are enjoying this wild and woolly West to the limit.

We have some new neighbors. Mr. and Mrs. Hallie Morgan from Clive moved in with Bruce Wilkins a short time ago.

We are very thankful for the recent fine rain.

We are informed that Mr. Laird, our former pastor, passed through the district on his way to his present location.

Mr. Waterman had a cold on Sunday and could not teach his class. We missed him.

Mr. and Mrs. H. O. Sims had as their guests on Sunday afternoon Mr. and Mrs. DeJong and little daughter, Alice Mae, Mr. Hilka DeJong and Miss Alice Mont, all of the Clive district.

Mrs. Wm. Suller and daughters Betty and Mrs. Howard Sharpe arrived home last week from a six-weeks' visit with relatives in Quebec. They report a good time and the hay as high as the fence.

Going to Banff

Dad and Mother Whitney are leaving for Banff this week. It is a great place for honeymooners. Wonder if that is why they are going?

Miss Agnes Forrest, with several other girls from the Clive-Chigwell district, enjoyed the cool breezes on the lake during all of last week and Mr. and Mrs. Forrest motored out on Sunday to bring them home.

Robert Sawyer, a retired Methodist minister from across the line, is visiting from across the line, district and held church services at the Joffre Hall last Sunday.

The girls came home last Thursday from the United Church camp at Meridian Beach and report having a good vacation. The attendance was greater this year than last, and the boys who went in as the girls came out were nearly double in number from last year.

Mr. and Mrs. Arabie Caverhill were visitors over the week-end with Mrs. Caverhill's sister at Cardston.

Miss Graham of Edinburgh, Scotland, was a visitor last week at the home of Mr. and Mrs. Dave Dixon. Scotland must be a good country to produce such lassies. Welcome to our section of Sunny Alberta, Miss Graham.

Better to Bear And Forbear

In a small town every action, motive and possible circumstance in our life is actively, and not always kindly, surveyed, discussed and judged by our neighbors. Perhaps this system helps to keep us on the straight and narrow path and is the reason why the morals of a small town are generally better than those of a large city.

Some towns are notorious for gossip, and while much of it is harmless, many lives are embittered by the complete lack of charity among those from whom circumstances prevent escape.

Alberta's sugar industry is centered around Taber.

Chigwell

CHIGWELL.—Mrs. McCallum and sons, Vernon and Dennis, left on Saturday last for a holiday at Vancouver.

Mrs. Morter is visiting her daughter, Mrs. A. E. Wilston, at present.

Mr. and Mrs. Victor Lockerby are the proud parents of a baby girl.

A large party of young people are spending a week at Lakeside Camp at Gull Lake.

Harley Wilson and children from Carbon were visitors last week-end with Arthur and Floyd Wilson.

Everyone enjoyed the old-time rain last week, even if it did interfere with a few holidays.

Mrs. Thomas and daughter Joan left for their home in Drumheller last Saturday.

Mrs. Thomas and daughter Joan left for their home in Drumheller last Saturday.

Miss Phyllis Walden returned home from Edmonton a week ago, where she has been visiting her aunt.

Ross Lemon returned home from visiting his sister in Wetaskiwin this week.

Mr. and Mrs. MacLaughlin from Saskatchewan are visiting in Chigwell this week.

A number of families motored to Sylvan Lake on Sunday last to see the House of David ball team play. Mr. and Mrs. Cocklin spent the week-end in Edmonton.

HUMAN WEAKNESS

There is a great tendency among a people blessed with abundant prosperity and the blessings of liberty, to overlook those present blessings and vainly work for fancied advantages and for the institution of laws not always needed.

This is not an infrequent tendency when the good that is ignored; and so ambitions, labors, hopes, and prayers are expressed, maybe the effect of often losing what would prove to be enjoyments right at hand if only they are recognized and utilized.—Ernest C. Moses, in "Our United States."

"Did he take his misfortune like a man?"

"Precisely. He laid the blame to his wife."

Gull Lake

GULL LAKE.—All picnics were "washed out" by the big rain last week but we have heard no complaints. Crops are improving fast and are as good and better than any other districts we have seen.

Sunday found hundreds of cars and people again at the lake to enjoy the swimming, bathing, the beach and picnic grounds. It was the biggest crowd this season.

Mr. and Mrs. J. McMillan and family of seven, who are travelling by car and cabin trailer, are spending a few days at the Lakeside Camp before going on to Calgary. Other visitors at the camp were: E. W. Bergreen and T. T. Bergreen of Broken, Sask.; Arne Fremstead and Sander Thompson of Frontier, Sask.; and George Geall, Stenton, B.C.

From Ponoka

Misses Olive McDonald, Thelma Corser, Evelyn Piers, Walter Corser and Victor Corser are camping for a week at Lakeside. Mr. and Mrs. Corser, Mrs. Martin Bedner, Mr. and Mrs. Guy Bedner and family and Bob McLean, all of Ponoka, were their guests on Sunday.

Other Ponoka visitors were Mr. and Mrs. C. Heppner and family, Mrs. Walde and family, Mrs. Graham and Dorothy Graham and Mrs. Ellen Ghent.

The Hollanders' picnic has been postponed to some future date.

The Modern Woodmen of America, Central Alberta Camp, will hold their annual picnic at Lakeside Camp July 28th.

Some nice eight-pound fish have been caught at Balm Bay and at Brewer's Beach lately.

Mr. and Mrs. Perry Pratt of Lacombe had as their guests at their cottage over the weekend, Misses McDowell, M. Dowling and Freda Simpkins of Lacombe. Miss Simpkins, of the Royal Bank staff, is leaving soon for a holiday trip to her home in England.

Hike to Jones' Point

The six members of the Merry Maidens' Club, with their leader, Mrs. L. Cabela, went on a hike to Jones' Point last week. The weiner roast, swimming and ball games were enjoyed by all.

Dick Cox, who has just finished drilling a 94-ft. soft water well for David Pock, south of the Woody Nook School, is moving this week to the John Groat farm to commence work on a new well.

Ed Leiske motored to Edmonton recently. S. A. Leiske, Marvin Leiske, Allan and Frank Cox accompanied him on the trip.

Fred Pimm returned to work for E. C. Moore. His parents, Mr. and Mrs. R. Buckhurst of Sundre, and their family motored here to visit with old friends.

Miss F. Surratt, who returned recently from a trip to Oregon with her brother Don, is spending a few weeks in Calgary with friends. There are some excellent gardens in the district. New peas, potatoes and white turnips are helping out the daily menu.

Sport-Scope

By JACK MCCAUGHERTY

Sam Brendon and Branch Rickey are so disgusted with their Gas-house Gang, the St. Louis Cardinals, that they are willing to sell all their players (excluding Frank Frisch and Joe Medwick) on the auction block. The red bird team of the National League today is rated the poorest since 1924, when they finished in sixth place.

DID YOU KNOW THAT . . . 7 Joe DiMaggio defeated Bob Feller and the Cleveland Indians on Sunday when he blasted out a home run with the bases loaded. This marked the youthful Feller's fourth straight defeat in his "comeback" campaign this season.

The Canadian professional golfers are rated much more highly this year. With a crowd like Jules Huot, Bobby Alston, Bob Gray Jr. and Willie Lamb, the Canadians look for a victory over the United States in the newly arranged match set for September 7.

Grant Evans, 16-year-old slinger-of-horseshoes from Spruce Grove, won the provincial horseshoe championship for the fourth successive year on Saturday night at the Edmonton Exhibition.

Many new boats have been launched on the Mackenzie River this year.

SALLY'S SALLIES

AW-C-HON, QUE-ES-A-RUG!

A lot can be done with a minimum of time can be squeezed.

Brownlow's Landing Popular With Vacationists

Among the many visitors at Brownlow's Landing this week are Mr. and Mrs. L. F. W. Tetley and Miss Helen Tetley, who were guests of Dr. and Mrs. R. B. Jenkins of Edmonton in their cottage here.

Other guests at the Jenkins cottage were Mr. and Mrs. W. W. Evans and Mr. and Mrs. G. A. Hunt, all of Edmonton.

Mr. and Mrs. Geoffrey Taylor and family of Edmonton are in residence for the season. Also Mr. and Mrs. A. R. Stockman of Edmonton, who will spend the balance of July in the Cairns cottage. Mr. and Mrs. W. B. Cairns of Edmonton stopped over for a week-end at the lake, the guests of Mr. and Mrs. John Dameron of Bentley, Mr. and Mrs. Cairns were former residents of Bentley and were returning from a holiday spent at Holland, Manitoba, and other points east.

Dr. and Mrs. McCallough and family of Red Deer moved out of their cottage at the landing this week, where they will spend the holiday season.

Mr. and Mrs. Percy Engle of Edmonton, with their grand-daughter, Miss Doris Sherman of Spruce Grove, arrived Saturday and will spend the balance of the season in their cottage here. The Engles have had an attractive addition built to their cottage. Mr. George Brown of Calgary is another of the cottagers who has greatly improved his property here by the addition of several rooms.

Bishop of Calgary Visits

Rt. Rev. L. Ralph Sherman, Bishop of Calgary, with Mrs. Sherman and their four children, are occupying "Red Robin," their summer home at Meridian.

Mr. and Mrs. J. E. McPhee of Three Hills, Mr. and Mrs. Charles, Anderson of Edmonton and Mr. and Mrs. Hancock of Gibbons are among those registered this week.

Mr. and Mrs. Matheson from Ponoka are in residence here and have as their guests Miss Olive Kemp, E. D. Kemp and L. M. Bosserberry, all of Ponoka.

Mrs. George Gorman, Miss Gorman and Miss Daphne McKenzie of Edmonton spent a few days at the landing in the Cairns cottage.

Miss Ivy Benning and Miss Jean Saunders of the Aspen Beach district are spending the season here with Mr. and Mrs. H. Brownlow.

Major Hale, who spent some time last week with his family at "Inverloch," was called to Edmonton by business pertaining to air mail service to the north and to meet the U.S. fliers who were scheduled to arrive by Douglas air liner in Edmonton over the week-end.

C. Hubbard Keeps Eagle Penned Up

A diet of gophers and rabbits is good for eagles, Charlie Hubbard of Lacombe claims. The eagle, which was caught in a coyote trap in the Blindman Valley last December, and which Charlie has been keeping penned up near his home since, has grown considerably. When caught, Charlie claims the wing spread of the bird was six feet, six inches, while today it measures seven feet. According to Charlie, the eagle is becoming more vicious every day.

Bentley

BENTLEY.—Mr. and Mrs. F. Hunter spent the week-end at Calgary and Glenora. Their son Herbert lives at Glenora.

Gene Blish, Jr., had the misfortune to fall and break his arm last week.

Mr. and Mrs. W. Whitworth and Mr. and Mrs. George Graham Jr. and Mrs. Ray Gideon and Mr. and Mrs. M. S. Withersall motored to Pine Lake on Sunday, returning on Monday. They were successful in catching quite a number of fish.

Born at the Bentley Community Hospital on Tuesday, July 13th, to Mr. and Mrs. McKenzie of Eckville, a daughter.

Surprise Party Given

On Saturday evening last some 20 High School students gave a surprise party at the home of Mr. and Mrs. R. B. Garris in honor of James McFadden, who is leaving shortly to reside in Edmonton. Games were played, after which the young people adjourned to the outdoors and partook of a weiner roast.

Gerald Evernden, on behalf of the group, presented "Jim" with a combination bill fold and change purse. An enjoyable evening was brought to a close by all joining in wishing Jim the best of luck in his new home.

NOT ENOUGH

A farmer in need of extra help at haying time, finally asked St. Watson, a town character, if he could help him out.

"What will you pay me?" asked St.

"I'll pay what you're worth," answered the farmer.

St. scratched his head a moment, then announced with decision, "No, I'll not work for that!"

YES!

Wife—Would you like this hat turned down, dear?

Husband—How much is it?

Wife—Eleven dollars.

Husband—Yes, turn it down.

"Georgious Hussy" Comes to Avalon

Boasting enough stars for half a dozen pictures and with a patriotic and historic background, "The Georgious Hussy," which comes to the Avalon Theatre on Thursday, Friday and Saturday of this week, will please almost everyone.

While Joan Crawford is the star and gives an impressive portrayal, Lionel Barrymore's depiction of "Stonewall" wife, Rachel, Jackson is undoubtedly the high spot of the film, closely followed by Beulah Bondi's characterization of "Stonewall" wife, Rachel.

Robert Taylor, Franchot Tone and Allison Skipworth also have places in the all-star cast of this picture, with deals with America's history between 1820 and 1830.

BIRD VERSUS WORM

Be early, if you are the bird; There's lots of wisdom in it. But if you chance to be the worm—Better wait a minute!

Farewell Party Given For Mr. and Mrs. W. Fay Johnston, Bentley

(From Our Bentley Correspondent)
BENTLEY.—An enjoyable evening was spent on Friday, when some 75 friends gathered at the Community Hall here to attend a farewell party given in honor of Mr. and Mrs. W. Fay Johnston and family, who are leaving shortly to take up residence in Edmonton.

After several hands of bingo and whist were played, a bountiful lunch was served by the ladies.

F. W. Thorpe, with a few well chosen words, presented a purse to Mr. and Mrs. Johnston.

The remainder of the evening was spent in dancing, the music being furnished by "Rubinoff" and his band of "Serenaders."

Mr. Johnston, who has been the manager of the Bird Drug Co. in Bentley for the past eight years, has taken an active interest in the community, serving as secretary and president of several of the local organizations.

Mrs. Johnston was president of the Ladies' Aid of the United Church.

Mr. and Mrs. Johnston have made many friends during their stay in Bentley, who will be sorry to see them go and who will all join in wishing them success and happiness in their new home.

Elbert Hubbard, noted American writer, was lost on the Lusitania in 1915.

YOU Share in Canada's Greatest Co-Operative Business

LIFE INSURANCE is the greatest co-operative business in Canada. As a policyholder, YOU are associated with more than 3,500,000 other Canadians in this great enterprise.

Every business day last year Life Insurance Companies in Canada distributed to Canadian policyholders and beneficiaries, over Half a Million Dollars.

Life Insurance enables YOU to provide financial security for yourself and family. It also benefits the country as a whole through the investment of Life Insurance funds in important public enterprises.

Life Insurance dollars give employment to workers throughout the Dominion. Transportation facilities are extended, highways built, streets paved, schools erected, water, sewage and other necessary works constructed. Life Insurance dollars help to finance the farmer, and bring business to the general store and country merchant.

In the past five years of business depression, Canadian policyholders and beneficiaries received over Eight Hundred Million Dollars in payments from their Life Insurance funds. Life Insurance Companies have fulfilled every obligation one hundred cents on the dollar.

As a policyholder, YOU can take justifiable pride in sharing in this, the greatest co-operative business in Canada.

Life Insurance

Guardian of Canadian Homes

Blackfalds

BLACKFALDS.—Mr. and Mrs. Henry McLennan are receiving congratulations on the birth of a son at Lacombe on July 17th.

Edmonton visitors from Blackfalds and district last week included Miss Jean Moon, Mrs. Duncan, Laura Schmidt, Chris Rile, Archie Carlyle, Chester Martin and Simon Taylor. Rumors are afloat that Miss Faye Iatlock has been successful in getting Aspelund School to teach for the coming term. Miss Augusta Heindrich, the former teacher, left recently with her mother for a prolonged stay in Vienna, Austria.

In our recent list of teachers attending Summer School in Edmonton, two were unavoidably omitted. They are Miss Nettie Rowe and Miss Faye Iatlock.

Mrs. Moss has her sister-in-law, Mrs. Ingham of Calgary, visiting her at present.

Painting United Church
The United Church is receiving a much needed coat of paint. The men of the district who have time to spare are kindly doing the work. Elmer Wade helped to look after Elwell's stock at some of the recent provincial fairs. He returned home a few days ago.

Sports Day, which had to be postponed last Wednesday owing to the rain, is scheduled to take place on July 28th.

Mr. and Mrs. Emil Schmidt have returned from their trip to the U.S. Mr. Apps and his family of three children left last Monday for England. Mr. Tupper, the local Fuller Brush agent, together with his wife and family, moved into the house thus vacated on the following day. Mr. Elwell is at present having a new barn constructed on his farm. It is recorded that 5.07 inches of rain fell here last week.

A GOOD EXAMPLE
In the public gallery of the Assembly Hall an elderly lady was heard to remark at the close of one of the sessions:

"If everyone else would do as I do and remain quietly in their seats until everyone else has gone out, there would not be such a crush at the doors."

This year's Calgary Stampede was a notable success.

Saskatchewan's Premier Becomes Heap Big Chief

Members of the Peepekis tribe of Indians at File Hills, Sask., honored the premier of Saskatchewan, Hon. W. L. Patterson, by making him Chief Ka-Nee-Kan-O-Teal, which means "leader of men" in English. Here, Premier Patterson, extreme RIGHT, is shown in his tribal dress. The Indian chief on the extreme LEFT is Yellow Dog and two tribal maidens are in the CENTRE.

Many McLaurin Beach Campers Leave

McLAURIN BEACH.—One hundred happy girls and eight leaders who have spent the past 10 days at the Baptist girls' camp here packed up their kit bags July 20th and left for their homes, some 45 to Edmonton, 32 to Calgary and the balance to various other points in the province. The camp, which is the biggest in the history of McLaurin Beach, was considered a huge success in other respects as well as in numbers. Fifteen girls professed conversion and most of the others confessed to a spiritual warming-up. Jean Fletcher of Calgary won the Bible reading contest, with Kay Fowler of Edmonton second. The silver medal was won by Annie Did- duke of Edmonton. Girls who won places on the honor roll were Lois Shaw, Edmonton; Margaret Harriott, Calgary; Evelyn Sewall, Edmonton; Kay Miller, Calgary; Jeanette Wilchinski, Edmonton; and Alice Potts of Calgary.

Nature Study Contest
In the nature study contest, Alice Russell, Red Deer, was first, with Nina McCoy of Edmonton second. Yvonne Mattern won the prize in the photography contest and Ruth Haynes, Calgary, carried off honors in field sports.

A pleasing function was the presentation of a ring to Miss Conale Carter, the director, by the girls. The sports group making the highest aggregate of marks was the Yellows under the leadership of Miss Bernice McBeth, while the Nite-Hawks group was adjudged the best of the hut groups, under Miss Isabel Welch. Miss Conale Carter of Crescent Heights, Calgary, was the director, and she was assisted by the following group leaders: Lily Stevens, Mrs. Brandt, Mrs. Ruth Stevens, Miss Mary Beard, Miss Isabel Welch, Miss Ruth Saunders. Mrs. Heally was camp nurse and Miss Hattie Warren was sports leader.

Rev. R. B. Layton, B.D., Minister
Services at 11:00 a.m. and 7:30 p.m.

On Sunday evening, Mr. Layton closes his preaching ministry in St. Andrew's, speaking on the subject: "A Watchman Unto the House of Israel." He regrets that it is not physically possible for him to visit everyone connected with the congregation before leaving, but possibly he will see many on Sunday evening.

CHRISTIAN SCIENCE

At all Christian Science churches next Sunday, the subject of the Lesson-Sermon will be "Truth." The following is one of the Scriptural quotations contained in the Lesson-Sermon: "And the Word was made flesh, and dwelt among us, (and we beheld his glory, the glory as of the only begotten of the Father), full of grace and truth. . . . And of his fullness have all we received, and grace for grace. For the law was given by Moses, but grace and truth came by Jesus Christ" (John 1:14, 16, 17). One of the correlative passages from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, is as follows, (page 350): "The Word was made flesh; Divine Truth must be known by its effects on the body as well as on the mind, before the Science of being can be demonstrated. Hence its embodiment in the incarnate Jesus,—that life-link forming the connection through which the real reaches the unreal, Soul rebukes sense, and Truth destroys error."

Quips and Quirks

WAIT TILL HE GETS THE BILL!

Guest: "Do you operate a bus between the hotel and the railroad station?"

Manager of Ritz Hotel: "No, sir."

Guest: "That's strange. All my friends said you would get me coming and going."

SAFE GARDENING

"How are you getting along with your garden?"

"Fine! I've planted the seeds a foot deep—and I defy the neighbor's chickens to dig them up."

AMA!

It was during the impaneling of a jury that the following colloquy occurred:

"You are a property holder?"

"Yes, your Honor."

"Married or single?"

"I have been married for five years, your Honor."

"Have you formed or expressed any opinion?"

"Not for five years, your Honor."

Troubles With a Two-Button Coat

Dear Mrs. Carr:

Should a man's two-button single-breasted coat be worn open or buttoned? If buttoned, which ones should be used?—Fashionable.

Button the two lowest buttons—St. Louis Post-Dispatch.

Nonsense! Button the two top buttons.—New Yorker.

HOUSEHOLD HOLOCAUST

Newly-Wed Husband: "Do you mean to say there's only one course for dinner tonight? Just cheese?"

Wife: "Yes, dear. You see, when the chops caught fire and fell into the sweets, I had to use the soup to put it out."

Should Dip Sheep Twice Annually

Ticks in sheep are more easily discernible after shearing and perhaps on that account the dipping of sheep in the early part of the year is more commonly practiced than in the fall. However, two dippings a year are recommended because a few ticks in the fall may increase to large numbers by spring. So far as early dipping is concerned, all sheep not already dipped should be attended to at once. In the warm weather there is little danger from cold and the lambs have reached an age to stand dipping well.

Ticks and lice are two external parasites that are common pests to sheep. They sap the vitality of both ewes and lambs and are the cause of much discomfort. To secure the best return from sheep, dipping should not exceed three cents per head. Dips are sold in two forms, powder and liquid. Any of the standard dips carry directions for use on the package and good results are usually obtained if directions are followed.

Reduces Cost of Dipping

Community dipping tanks have come into common use in recent years. One of the first and main costs of dipping sheep is to make enough dip for the batch and after that dipping fluid is added as required. When a lot of sheep are dipped co-operatively, the cost for dip is less and the labor involved is reduced also. A better dipping is usually secured.

The following are reasons why it pays to dip:

1. Sheep that are free from ticks and lice grow more and better wool.

2. A clean flock requires less feed and is more easily kept in good condition.

3. The lamb crop is stronger.

Tees Tattle Tales

By TATTLE

TEES.—The Big Sports Day to be put on by the community is rounding into shape and all details are expected to be completed long before the exciting day, July 28th. Workers are being detailed and instructed in their work so that the events will go off without a hitch. About the only thing left will be the draw for the first two ball games between Westling, Sargeant, Nebraska and Tees. The managers of those teams will be on hand to find their opponents before the games commence.

Miss Elsie Cunningham arrived home Saturday from the Stettler Hospital, where she underwent an operation for appendicitis. The recent heavy rain has turned the crop outlook into good prospects, and by the smiles of the farmers, the rain was in time to help.

Miss Olive Mullins is now working at the Red and White store.

Miss Bernice Brawner left Tuesday morning for a visit to friends and relatives in Montana, going via Spokane and the mountain route instead of the prairie route via Coult and Sweetgrass.

A good path has been worn to the old swimming hole—old and young alike seem to enjoy the walk down these days. Fishermen have had a little luck in the creek, getting some nice jacks.

Tom Cunningham and family expect to leave any day now on holidays. Tom advises that they are just taking a motor jaunt up to the hills west of Bowden and maybe get a day's fishing.

ewes milk better, and lambs grow more rapidly.

4. Parasites are a source of serious discomfort to sheep. The good shepherd should be mindful of the comfort of his flock.

DON'T WE ALL?
"I wish our bank could get on its feet enough to stop sending back our cheques marked 'No Funds,'" said the bride to her husband. "A bank that hasn't enough money on hand to pay a \$4.27 cheque ought to be merged and put on a sound basis."

The United States uses more than half the world's supply of rubber.

OWNERS DELIGHTED WITH OLDSMOBILE ECONOMY

You'll be money ahead by owning

A THRIFTY, DEPENDABLE OLDSMOBILE

HALF the fun of driving an Oldsmobile is the way it saves you money. It's great to own a car so big and roomy—so smart and spirited—but the real satisfaction comes when you check motoring costs and find that Oldsmobile operating and upkeep costs are right down with the lowest. Owners will tell you that Oldsmobile delivers unusually high mileage on gasoline and oil. They will also prove to you that it requires the minimum of servicing . . . because of Oldsmobile's quality

engineering and precision workmanship. Look at Oldsmobile's price tag! Convince yourself that it is "The Car That Has Everything," with such fine-car features as Unisteel Turf Top Body by Fisher—Knee-Action Dual Ride Stabilizers—Cross Steering with Center Control—Super-Hydraulic Brakes—and Fisher No-Draft Ventilation. Then come for a trial drive in an Oldsmobile today. Ask about the low monthly payments to suit your purse on the General Motors Installment Plan.

Clive Man Estimates Wheat Crop in His District

An estimate has been made by W. J. Lemon, of the Clive district, one of the original pioneers of that community, regarding the wheat crop this year. Outside of frost and hail he predicts that wheat crops in the Clive and Chigwell districts will average 15 bushels, and possibly 17 bushels to the acre.

The oats and barley crop he would not estimate at the present time. Mr. Lemon came to this country first in 1898.

Laundry Room Will Lighten Work

The laundry room should not be forgotten when mapping out your home improvements. The task of keeping the family wardrobe clean and pressed is much lightened if the person who is doing the work has a cheerful workshop.

If possible, the room in which the work is to be done should have a window. A light and cheerful color scheme should be chosen and there should be adequate lighting. The Dominion Government's Home Improvement Plan may be invoked for the painting of walls, the installation of lighting fixtures and other permanent improvements.

The laundry room should have convenient shelves for storing washing materials; there should be provisions for a mending basket to fasten on buttons, etc., and a place to keep mending will aid the worker. A floor that is easily cleaned is important.

Special Session of Provincial Legislature Called for August 3rd by Premier

Report of Social Credit Committee Expected Shortly; Condition of Highways Arousing Considerable Indignation Among Motorists

A special session of the Legislature has been called by Premier Aberhart for Tuesday, August 3, to deal with recommendations of the Social Credit Board and to pass or amend necessary legislation to further proceed with the work of establishing Social Credit in this province. The session of the Legislature will be preceded on Monday, August 2, by a caucus of the Social Credit members of the House.

The general opinion expressed around government circles is that the session will be a short one, although to some extent this will depend on how much members want to discuss the speech from the Throne. As this is a new session, not an adjournment, there must be, of necessity, a speech from the Throne.

By T. B. WINDROSS

EDMONTON.—Premier Aberhart has returned from Vancouver, where he has been spending a short holiday, and he is now back at his desk, where he will, it is expected, receive the interim report of the Social Credit planning board on the work of the two Douglas experts who are in Edmonton. It was indicated by G. F. Byrne, one of these experts, recently, that they would be able to make their report to Major C. H. Douglas in a short time, the time being indicated as about the end of July. Whether this report will be released in London or Edmonton first is a question that has been puzzling the democratic citizens of the capital for some time. One Edmontonian of prominence suggested the other day that London seemed to have become the capital of Alberta in the meantime.

Considerable indignation is being expressed in the capital over the condition of the roads following the heavy rains of last week. Officials of the Alberta Motor Association as well as other organizations are stressing the fact that the maintenance of highways is a government duty, and that it is a disgrace when it comes to the state of the roads.

It is now likely, it is said by competent authorities, that sections of the main highway between Edmonton and Calgary will have to be completely re-built before anything like a solid and satisfactory roadway can be secured. Maladministration by the Department of Public Works under Hon. W. A. Fallow is being blamed by critics for most of the catastrophe that has overtaken the Alberta highway system. Pictures of autos mired to the running boards and rendered helpless have made a profound impression here when published and the probe into the construction costs of the Edmonton-Ponoka highway, which opens in August, is likely to bring to light some facts concerning the way the roads have been neglected.

Lack of funds with which to carry on adequate maintenance of highways is said to be a real explanation to be provided by the Department of Public Works.

The Edmonton Exhibition has come and gone and despite the fact that two full days were lost to the show by reason of the welcome heavy rains, it has been a success. Even the directors of the exhibition did not deplore the rain, though they may have wished it had stayed off for a day or so longer or else come a week earlier. Farmers, however, who have left late crops, are thankful it came when it did. It has made a tremendous difference to crop prospects in the Edmonton district. The rainfall was an all-time record of 6.15 inches in a little more than two full days.

Some Essential Factors to Success

Anyone who wants to get ahead can learn much from observing the ways of successful corporations.

In the first place, successful businesses keep their premises clean. Shiftless independent merchants wonder why so many customers go to chain stores. Cleanliness is one of the principal reasons. Anybody can keep his place of business clean and orderly, and if he does he will have taken an important step to insure survival.

Successful companies are thrifty. They look after their tools, outfit, and repairing them regularly. They discard junk. When a machine approaches obsolescence, they replace it promptly with a modern machine. Successful companies manage their affairs that they have ample funds for the conduct of their business. This permits the management to spend its time making money instead of raising money.

"I can't do things that way, because I'm too small," complains the unsuccessful business man. What he should say is "I'm too lazy, shiftless, indifferent and stupid to do things that way."

Laws against business won't save the little man from his personal failures.

Music While You Work is Latest Idea

LONDON, Eng.—Music to brighten working hours and increase efficiency is being tried out in a number of different occupations in Britain. A farmer near Rugeley has a miniature radio with earphones hung round his neck while he plows; a Margate blacksmith has the earphones on while he hammers away on his anvil; a big automobile factory at Coventry has periods of dance music in its work rooms and finds output increased and two natural scientists have discovered after 24 weeks of experimenting that dance music in factories during working hours is definitely beneficial.

The possibilities of such experiments appear unlimited. The Rugeley farmer may find his horse plows better to music, in which case he would doubtless have a carphone extension to the horse, or have the horse carry a loud speaker. The ambitious farmer with a portable radio set should be able to make full use of talks on agricultural matters which he might otherwise be too busy to listen to. He never need miss the weather forecast.

A Musical Smith

One might think that smithy work was too noisy for radio accompaniment. The Margate smith, however, hears well enough with his earphones and enjoys his work all the more. Music seems to give him new inspiration and rhythm. But then blacksmiths always have been a romantic type.

The two natural scientists who experimented with the effects of music on repetitive work are Mr. S. Wyatt and Mr. J. N. Langdon. Their conclusions are that if manufacturers want bigger outputs they should have dance music in their factories.

They claim to have shown that music during work banishes the boredom of doing the same operation over and over again, and that dance music with its well marked rhythms is the best form of music for this particular purpose.

The experiment lasted 24 weeks and was made on girls making paper Christmas crackers. It was found that while gramophone records were being played, output increased from 6 to 11 per cent, and that alternate half hours of disks formed the most popular arrangement.

Questioned on their attitude toward the music, the girls gave such answers as: "It makes you work better because you talk less," and "Music makes you look forward to coming to work." Although it is felt here that such a fashion is a very good move, some wonder how long it would be before the music began to bore the girls through repetition. It is suggested that there is not enough music to go round.

A New Profession

Perhaps, however, such difficulties could be overcome by establishing an extra staff of song-writers, paid on a results basis by taking a certain proportion of the extra output their tunes induced.

It is believed that the only repetitive workers who do not respond

Lakeside

LAKESIDE.—Congratulations are being extended to Mr. and Mrs. Bob Jones on the birth of a son.

The last meeting of the Social Workers was held on July 28th at the home of Miss Sadie Sampel.

The 3rd annual Lakeside Canyon Social Credit picnic will be held on Wednesday, July 28th, at Henderson's farm, one mile south of the Lakeside school. D. B. McMillan, M.L.A., will speak. A softball tournament, tug o' war and sports of all kinds are being staged. Lunch starts at 12:30 o'clock sharp. Everybody welcome.

There will be a dance in aid of the school fair on Wednesday, July 28th, in the Lakeside school. The tea set donated by W. J. Trott will be drawn for during the course of the evening. McDonald's orchestra will furnish the music. Don't forget this date.

Mrs. E. Douglas has her father and sister visiting with her for a few days.

FOR BETTER BISCUITS

Recent laboratory tests bear out the old-fashioned cooking rule that biscuit dough should be handled lightly to make tender biscuits.

to the spur of dance music are dance musicians.

Radio or gramophone music seems to have a rival in the song of budgerigars in the Manchester office. Poets from time immemorial have been inspired by the song of the birds, so presumably there is no reason why typing should not be improved in the same way. The National Institute of Industrial Psychology is said to be taking a considerable interest in this Manchester experiment. There are some people, of course, who might soon find they needed something to distract them from the budgerigar's twitters.

But whatever the results of all these experiments, few people will deny that they reflect the present-day trend to improve working conditions for those engaged in monotonous tasks.

The World of Wheat

By H. G. L. STRANGE
Director, "Crop Testing Plan"
One picture is worth 10,000 years.

This is a Chinese proverb, thousands of years old, and as with all Chinese aphorisms, contains the very essence of truth itself.

The "Crop Testing Plan" took a cue some years ago from this ancient Chinese proverb, and by growing samples which represent farmers' actual fields of wheat, make "living pictures" of thousands of individual fields in order to demonstrate to the eye their true nature—variety, or whether they contain undesirable, unprofitable mixtures.

These "field pictures" or demonstrations may be seen during the next few weeks growing at over 100 points in Western Canada, and field days are held, during which the material is demonstrated and explained by expert cerealsists and plant breeders.

The plots show in addition the new rust-resistant wheat varieties with, too, some new crops gathered from the four corners of the earth, of interest to Canadian farmers.

It would be worth the time of all who are interested in the advancement of agriculture to attend one of these field days, the object of it all being to improve wheat quality, and so to help sell the farmers' wheat on world markets at better prices, hence finally to increase the income of the Western farmer.

The following factors have tended to raise prices: Rust damage spreading to U.S. winter and spring wheat crops and in Manitoba; wheat crop of Manchuria, Japan and China estimated 120 millions less than last year; drought conditions prevail in southern hemisphere; China and Japan clash; China buying U.S. gold; European deciduous fruit prospects less favorable.

The following factors have tended to lower prices: U.S. Department of Agriculture estimates U.S. wheat crop 882 million; India offers wheat freely; record crop expected in Greece; French crop larger than last year; Balkan States harvest larger crop than expected; heavy rains in Western Canada.

EASY METHOD

"We never needed any of them new fangled scales in Ireland," said O'Hara. "There's an alsy way to weigh a pig without scales. You get a plank and put it across a stool. Then you get a big stone. Put the pig on one end of the plank and the stone on the other, and shift the plank until they balance. Then you guess the weight of the stone, and you have the weight of the pig."

MANY FACTORS AFFECT

PRICE OF GASOLINE

In the retail end of the oil industry a recent investigation showed that at least 16 factors affected the price of gasoline, many of them in favor of the consumer. Oil men and government officials found out the complexity of the situation under the NRA when they sought a panacea for the industry's marketing ills. No one remedy, they saw, would fit all the ailments any more than castor oil would cure all the patients in a hospital.

It is sometimes claimed, sometimes by political office-holders, that the fact that oil companies generally sell at the same price shows collusion. And they claim conspiracy is further proved by the fact that they advance or drop their prices at the same time. Perhaps those of average experience who make this claim, seldom have any faith in it themselves.

There are some, no doubt, who do not see why this occurs. Here again comes in the factor of competition. Anyone selling a commodity against others selling substantially the same thing, quickly realizes that it is difficult, and in most cases impossible, to sell his article at a higher price to the same people his competitors are selling.

The oil industry—as have most other industries—has seen thousands of cases where competing companies have refused to meet the prices of aggressive competitors. Soon they find their business drifting away to those offering the lower price and they have to come to it. There is nothing secret about this process. It is a simple demand of business competition.

PONTIAC OFFERS So Much More FOR So Little More AND HERE'S THE WAY TO PROVE IT!

ONLY when you have driven Pontiac over all kinds of roads . . . sensed its ease of control and the flow of power from its big, 89-horsepower engine . . . enjoyed the super-safety of its Unisteel Turret Top body by Fisher . . . the incredible smoothness of its Kne-A-Action ride . . . the luxury of its spacious interiors . . . and the wonderful economy the car provides at every speed . . . then, and only then, will you realize how much more Pontiac offers for just a few cents a day more than the lowest priced cars. Yes! A ride will prove to your complete satisfaction that your new car dollar goes farthest with Pontiac. So why not have a test, today?

Field Day at Olds School of Agriculture

Saturday, July 31st, is to be the Horticultural Field Day at the Olds School of Agriculture. Dr. Shoemaker, Professor of Horticulture at the University of Alberta, Mr. F. D. Hargrave, Superintendent of the Horticultural Experiment Station at Brooks, and Mr. A. T. Kemp, lecturer in horticulture at the O.S.A., will all take part in the program. The gardens, orchards and the grounds at the O.S.A. have many things of interest to those who wish to improve and beautify the setting of their homes and at this time of year they are showing to good advantage. Those who are interested will be made welcome. Bring your basket and have a picnic lunch. Tea and coffee will be provided.

Lacombe Fair

(Continued From Page One)

issue of the Globe.
A complete program of running races for children of school age will start immediately after the livestock parade, under the direction of T. W. H. Lewis, and the events will be announced by loud speaker.

Baseball Game at 6 p.m.
The Clive and Ponoka baseball teams will take the diamond at 6 p.m., when a battle royal is expected to take place for the coveted prize. Making the fun of the Fair will be the midway, complete with shows, rides and concessions. Hot dog and soft drink stands have laid in a supply to do a roaring business. For those who like to dance the light fantastic, a splendid six-piece orchestra will supply the music in the Pavilion at 10 p.m. sharp, continuing until the wee wee hours. Don't miss the big event of the year, if you are looking for a pleasant day's outing. Make sure and take it in.

Old-Timer to Open Fair at Red Deer

R. L. Gaetz, Respected Citizen, Will Officially Open Fair

Taking part in Red Deer Fair 47 years ago, R. L. Gaetz, old-timer of that district, will officially open the 47th annual Fair to be held today (Thursday), Friday and Saturday in that city.

The official opening will take place tomorrow (Friday) afternoon, with the Hon. D. B. Mullen, Provincial Minister of Agriculture, in attendance.

With preparations completed, the directors are optimistic that a record attendance will be created, livestock entries being exceptionally strong. Conklin's well-known Shows provide the Midway with many new riding devices, and the grandstand attractions are outstanding. The Fair will be lived with music by the Red Deer Citizens' Band and many other attractive educational features will tend to make the event enjoyable.

Local Softball Team To Compete at Bowden

Next Wednesday, Lacombe's softball team will travel to Bowden to take part in the softball tournament. Eleven outstanding teams have already entered including Wetaskiwin, Innisfail, Olds, and Didsbury, which claim to have strong teams. It is expected that Red Deer and Calgary will also enter.

The local team will not differ much from the one that topped the prize list in the softball tournament last third base in place of Pennan who is attending summer school. The rest of the team will be selected from A. Lee, E. Todd, A. Carter, R. Cliff, H. Heywood, J. Pike, W. Hoppa, R. Crundwell, A. Willshire and A. Frizzell. J. Shaw will be the manager.

An exhibition game for practice will be played with the Experimental farm team some evening. The farm team were the town league champions.

The prizes at Bowden are first, \$30, second \$20, and third and fourth \$10.

Rev. Layton Will Preach Last Sermon Sunday

On Sunday, July 25th, Rev. R. B. Layton will appear for the last time in the pulpit of St. Andrew's United Church as the pastor, thus closing a 15 years' ministry.

Mr. Layton came to Lacombe on July 30th, 1922, from Kenilville, Nova Scotia, where he had been a minister for 11 years. He received his High School, University and theological training in Halifax. In addition he spent a season in post-graduate work in Scotland. While there he preached in several churches in Glasgow and elsewhere in Scotland.

Before coming West, Mr. Layton had served his church on the Labrador and in Trinidad, as well as in his native province. He was the first chairman of Lacombe Presbytery after Union, and later acted as secretary. He was elected as president of the Alberta Conference in 1935 and travelled from one end of the province to the other while in office.

For six years he represented Alberta on Church Boards, which met in Toronto. Twice he was a Commissioner to the General Council and on the last occasion was elected Assistant Secretary of the Council.

Interested in Local Affairs
Since coming to Lacombe, he has interested himself in several projects. He brought about the organization of an Old-Timers' Association and prepared a history of Lacombe for the 40th anniversary of its settlement. For eight years he managed the United Camp at Meridian Beach and superintended the erection of its four buildings. This camp, which was originally intended for the Lacombe Presbytery alone, is attended by boys and girls from many other places.

There have been many changes in other churches during the past 13 years. Four ministers have been in the Anglican, five in the Baptist, five in the Free Methodist, six in Morningstar, six in Bentley and six in Clive United churches. In St. Andrew's congregation itself, eleven have come and gone. During the first six and a half years, 135 families moved away, and many more have moved since that time.

There were received into full membership 190 members; 214 were baptised, 221 were buried and 291 marriages were performed.

Method
It was in Old Ireland, and a gang of navvies were doing a spot of excavating in a hole.
Picks and shovels were not working at the speed the foreman desired. Putting his hand to his mouth "All of ye out!" he yelled.
The navvies dropped their implements and fled and scrambled out of the hole.
"All of ye out!" yelled the foreman. The navvies all jumped back into the hole. As soon as they were in the foreman again yelled, "All of ye out!"
Out they scrambled. This performance was repeated again and again until Pat (one of the navvies) asked the foreman why he was going on.
"Well," replied the foreman, "Ye take more dirt out on yer boots than ye do on yer shovels. All of ye out!"

WHO COUNTED THEM
There are 45,000,000,000 cotton fibers in one bale of cotton.

Clive

CLIVE—H. B. Scott is spending the week at Sylvan Lake.

Miss Lillian Harrow is spending the week at Sylvan Lake.

Mr. Seager of Chinook is visiting his sons, Ernie and Lamar, of Pleasant Valley.

The Clive baseball team played at Stettler on Tuesday at the Stettler Fair and were defeated by Delburne after an 11-inning game.

About 2 1/2 inches of rain fell here last week, which gave the farmers an entirely different outlook regarding their crops.

The new restaurant and T. A. Brexton's building are nearing completion.

P. Shove is having his blacksmith shop painted.

Miss Whimmore of Castor is visiting her sister, Mrs. Stumpf, here.

Heath Motors have sold out to Mr. Savers of Camrose, who has been in possession about a week.

Miss Lois Nesbitt has returned home after spending a few days in Lacombe with her sister, Miss Florence Nesbitt.

Noted Agriculturist Will Broadcast Over C.B.C.

Dr. E. Cora Hind, agricultural and commercial editor of the Manitoba Free Press, who recently returned from a two-year journey which carried her all around the world, will be heard over the national network of the Canadian Broadcasting Corporation at 9 p.m. E.S.T. on July 31st in a broadcast talk, "As Others Don't See Us."

Dr. Hind, who is considered one of the great agricultural experts in Canada, visited 27 countries, where she studied and wrote about agriculture and economic conditions for her newspaper.

Dr. Hind left Winnipeg in June, 1935, for Great Britain, from which point she made trips to European countries, including Russia and the Balkan States. Called back to London to write special articles following the death of King George V, she later travelled to South Africa, flying in easy stages from the Cape to Alexandria on the Mediterranean.

From there she went to India by way of the Persian Gulf and finally to Australia and New Zealand, where she spent several months. From the Antipodes, Dr. Hind sailed around the Horn to Montevideo and while in South America made a special study of the Argentine wheat and cattle country, finishing her tour of South America with a visit to Brazil.

Returning to Europe, she spent some time in London during and following the Coronation and then returned to Winnipeg after visiting the International Institute of Agriculture in Rome.

HOG HOUSE PLANS AVAILABLE
The Provincial Government has posted in all lumber yards throughout this district plans and specifications of model hog houses. These plans are supplied free of charge and have been drawn up in an effort to better the housing facilities of hogs so that hog raisers may improve the quality of their product.

MOTHER TONGUE
Teacher: "Why do we call English our mother tongue?"
Pupil: "Because father doesn't get much time to use it."

Pretty Wedding Takes Place at Free Methodist Church Here Sunday

A quiet but pretty wedding was solemnized at 12:30 p.m. on Sunday, July 18th, when Gladys Thelma, second daughter of Mr. and Mrs. Joseph Amoson, was united in marriage to Mr. Thomas Scott of Edmonton, youngest son of Mrs. Scottville, Camrose. The ceremony was performed by Rev. W. P. Carmichael of the Free Methodist Church in the presence of the immediate relatives.

Charmingly attired in mauve point d'esprit over a slip of white flowered crepe with white accessories, and carrying a white prayer book, the bride made a lovely picture as she was given in marriage by her father.

Her bridesmaid, Miss Laura C. Hain of Calgary, wore a lovely frock of white flowered crepe with jacket. The groom was attended by his brother, Mr. Conrad Scottville.

Centering the dining table was a beautifully decorated three-tiered wedding cake, which together with the rooms, was made most attractive with seasonal flowers.

Following the wedding luncheon, the young couple returned to Calgary, Banff, Lake Louise and other mountain points, the bride traveling in a green boucle knitted suit with hat and accessories in brown.

Many handsome gifts from both local friends and from pupils and friends of the Camrose district, where the bride has been a teacher for the past two years, attested to the esteem in which she is held.

After the honeymoon trip, Mr. and Mrs. Scottville will take up residence in North Edmonton, where Mr. Scottville is engaged in business.

Kamloops, B.C., is noted for its heat during the summer.

Do You Remember 'Way Back When?

(From the Minutes of the Town Council)

30 YEARS AGO — JULY, 1907
Mayor D. C. Goudry appointed a committee to draft and circulate a petition for signatures for the purpose of forwarding same to the Minister of Public Works with reference to the installation of a local Government Telephone System in Lacombe. S. Edwards of the Public Works Department appeared before the Council before the appointment of this committee to explain the telephone system as intended by the Provincial Government.

35 YEARS AGO — JULY, 1912
The Court of Revision was held July 12. A large number of appeals were heard, but most of the assessments were left unchanged. It was resolved that a vote be taken with regard to the water works system as planned by the Council.

Just in Case
The young attorney was sent out of town to interview an important client in regard to a case.

Later the head of his firm received the following telegram: "Have forgotten name of client. Please wire at once."

This was the reply: "Client's name Whitehead. Your name Burkey."

Close Check
Motorist: "How do you estimate that five gallons of gas at 20 cents a gallon make a dollar and four cents?"

Attendant: "The price went up to 22 cents before I put in the last two gallons."
